Title DEVELOPMENT OF CATALYTIC IGNITER FOR GTX ENGINE
(CONSOLIDATED PROGRESS REPORT)

Author/s K. SIVASANKARAM

Division PROPULSION

NAL Project No. PR-0-157

Document No. PD PR 9329

Date of issue Mar 93

Contents **Pages** **Figures** **Tables** **References**

External Participation G.T.R.E.,

Sponsor G.T.R.E., BANGALORE

Approval Head, Propulsion Division

Remarks

Keywords Turbojet afterburners, catalytic ignition

Abstract

This report contains details of experimental studies on a few catalytic igniter models carried out in the laboratory in a model afterburner rig at NAL under the GTRE sponsored project for Development of catalytic igniter for GTX engine. Details concerning the design of afterburner rig and instrumental are also included.
